.Net

August 2016 - March 2018

JavaScript Tech Leader

HEROFi combines visual media and data visualization to create the most advanced retail entertainment networks in the world.

- has built a team from scratch
- successfully and predictably delivering of the product
- high level of customer satisfaction
- business objectives are met
- a lot of my ideas were introduced and implemented (GitFlow, GitLab CI, Jira, new functionality)
- insisted on rewriting the project - have borne fruit
- chosen tech stack allow us to avoid hiring other professionals (C#, QT)
- was proactive based on an understanding of the business, not just tech. requirements
- mastered and taught new technologies (react + antd, redux, aws, jest)
